STOP COAL, ALL VILLAGES STAY!

19 – 24 JUNE 2019

IN THE RHENISH BROWN COAL MINING AREA

CORPORATE INTERESTS INSTEAD OF CLIMATE JUSTICE? NOT WITH US!

The majority of people want a quick exit from coal, but industry and politics rebel. The Coal Commission proposes to get out of coal by 2038. This is not a consensus, but the direct path to climate crisis! They are risking all our lives for infinite economic growth, pumping billions of taxpayers' money into the pockets of those who caused this crisis in the first place. Welcome to capitalism! Yet it has long been clear that energy production can also be decentralised and renewable, and that an immediate phase-out of coal is imperative if the 1.5°C target is to be achieved.

ALL VILLAGES STAY! EVERYWHERE!

The people in the villages near the open-cast mines are being put under massive pressure. The industry wants to take away their homes and the Coal Commission watches motionless. Historically grown communities and fertile soils are to be dredged, for short term profit. Even the Hambach forest is not yet final-

ly rescued. The dirty business with coal does not threaten only people and nature in this country. Especially in the global South hundreds of thousands are already fighting the consequences of climate change. We declare our solidarity with all those affected and resisting. As „Ende Gelände!“, we stand in a protective position between the threatened villages and the voracious coal excavators. We stand in solidarity with all people around the world who suffer the injustices of the climate crisis. Our action is an expression of determination: All villages stay! Everywhere!

ENDE GELÄNDE MASS ACTION 2019

Climate justice is non-negotiable. We don't let hypocritical "solutions" pacify us. We do not let ourselves be suppressed or intimidated. On the contrary! The climate justice movement is stronger than ever! We all feel that it is time to act and become loud, louder than ever! Therefore we will join forces to paralyze the coal infrastructure with a mass action of civil disobedience in June 2019. We take the coal exit into our own hands. Join us!
